True North / 2022 Annual Report

60 Years of Quality Service

A Member of Trinity Health

OUR MISSION AND VALUES

About Holy Cross Health

Holy Cross Health is a Catholic, not-for-profit health system that serves the two most populous counties in Maryland, Montgomery and Prince George's, with a commitment to being the most trusted provider of health care services in the area. Founded in 1963 by the Sisters of the Holy Cross, Holy Cross Health is a member of Trinity Health of Livonia, Michigan. Holy Cross Hospital, in Silver Spring, is one of the largest hospitals in Maryland, and Holy Cross Germantown Hospital is the first hospital in the nation built on a community college campus, enhanced by an educational partnership. The Holy Cross Health Network operates primary care practices and affordable health centers, and offers a wide range of innovative, community-based health and wellness programs. Specialty care, home care and hospice services round out Holy Cross Health's high-quality and coordinated continuum of care that aims to improve health and move life ahead for individuals and populations in the communities we serve. In fiscal 2022, Holy Cross Health contributed 9% of its \$654 million in revenue to community benefit activities that meet community needs and improve access to health.

Our Mission

We, Trinity Health, serve together in the spirit of the Gospel as a compassionate and transforming healing presence within our communities.

Our Core Values

Reverence

We honor the sacredness and dignity of every person.

Commitment to Those Who Are Poor

We stand with and serve those who are poor, especially those most vulnerable.

Safety

We embrace a culture that prevents harm and nurtures a healing, safe environment for all.

Justice

We foster right relationships to promote the common good, including sustainability of Earth.

Stewardship

We honor our heritage and hold ourselves accountable for the human, financial and natural resources entrusted to our care.

Integrity

We are faithful to who we say we are.

Trinity Health

Trinity Health is one of the largest not-for-profit, Catholic health care systems in the nation. It is a family of 123,000 colleagues and nearly 27,000 physicians and clinicians caring for diverse communities across 26 states. Nationally recognized for care and experience, the Trinity Health system includes 88 hospitals, 135 continuing care locations, the second largest Program of All-Inclusive Care for the Elderly (PACE) program in the country, 136 urgent care locations and many other health and well-being services. Based in Livonia, Michigan, its annual operating revenue is \$21.5 billion with \$1.4 billion returned to its communities in the form of charity care and other community benefit programs.

NAVIGATING A *NEW* ERA IN HEALTH CARE

It has been three years since we admitted the first COVID-19 patients to our hospitals, and through it all Holy Cross has remained steadfast in our commitment to the guiding principle that is our North Star and is the purpose and meaning of all that we do: *See a need, meet a need.*

2022 was also the 60th year our health system has been in operation, and I am proud to say we were able to provide quality health care to everyone who came to our clinics and hospitals. As the numbers in this report attest, we protected thousands against the worst the virus can inflict by administering thousands of doses of the vaccine; provided in-person services by maintaining the most rigorous safety protocols; and made meeting with our physicians and clinicians, and taking classes and workshops even easier through virtual visits.

This year we added Holy Cross Health Partners Progressive Medical Care to our primary care network and will be opening more practices in the near future. We completed an extensive renovation of our Labor and Delivery Unit, in part through the generosity of our donors, many of whom have been touched personally by the compassion and expertise of our clinicians. We are nearing completion on Phase 1 of the new Holy Cross Health Cancer Center in Wheaton featuring the latest in life-saving radiation treatment. The Cancer Center is our most significant financial investment since the opening of Holy Cross Germantown Hospital in 2014.

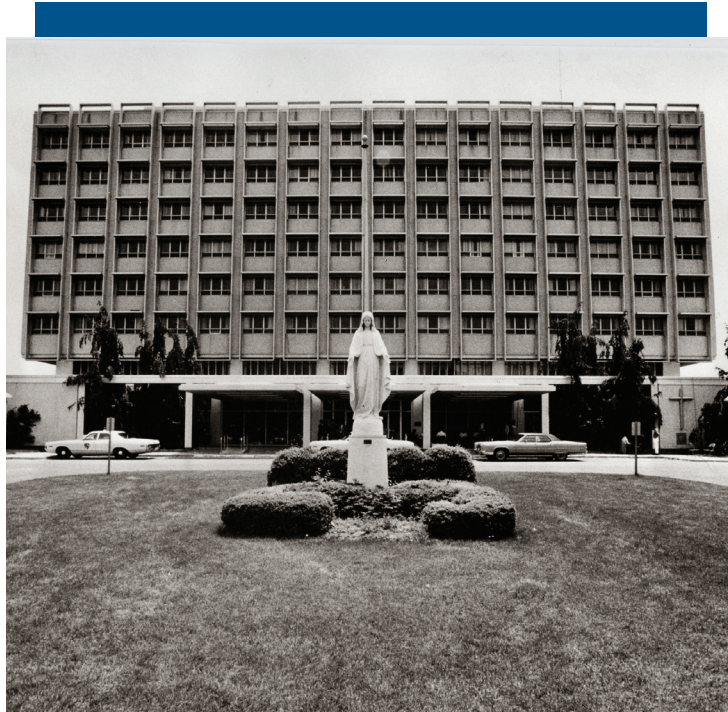

As we mark the significant milestone of our diamond anniversary, we also recognize that good health is a journey. In traveling the path of service together, with dedicated colleagues past and present, we find meaning and joy in helping others achieve and maintain good health. Tirelessly, we continue on the path — of service faithfully rendered — established by the Sisters of the Holy Cross as we respond to the growing needs of our community.

Holy Cross Health

CELEBRATING 60 YEARS

A Legacy of Outstanding, Compassionate Care

In 1963, Holy Cross Hospital opened its doors after receiving tremendous support from the community.

Neonatal Intensive Care

- Holy Cross Health has been providing specialized care and the latest technology to care for premature infants since 1966.

Promoting Wellness for Seniors

- Established in 1995, our free, award-winning Senior Fit program helps older adults stay active and improve their health. Today, the program serves more than 1,200 seniors throughout Montgomery and Prince George's counties.

Pioneering New Services

- In 2008, Holy Cross Hospital opened the nation's first Seniors Emergency Center, which tailors services and amenities to meet the unique needs of people ages 65 and older.

1963

A DECADE OF ACHIEVEMENT 2013-2022

Historic Expansions

- Holy Cross Germantown Hospital, the first new hospital in Montgomery County in 35 years, opened in 2014.
- With the opening of the South Building at Holy Cross Hospital in 2015, Holy Cross Health became the only health care system in Montgomery and Prince George's counties with all private rooms for patients.

Regional Collaboration

- In 2016, Montgomery County hospitals came together to form Nexus Montgomery Regional Partnership to improve health and reduce total cost of care in ways no single hospital could do on its own. Together, the hospitals have added behavioral health capacity, improved care coordination and helped people receive certifications to start health care careers.

Rising to the Challenge of COVID-19

- During the largest surge of the pandemic in May 2020, Holy Cross Hospital cared for more COVID-19 patients than any other hospital in Maryland.
- Holy Cross Health worked with our community partners to bring the COVID-19 vaccine to those most vulnerable.
- Innovative virtual care options made it easier for patients to access care.
- To promote well-being among our staff, Holy Cross Health added oasis rooms for a time of stillness and refreshment as part of self-care.

Maternal Health

- Holy Cross Health delivers more than 10,000 babies every year, supporting mothers and babies with sophisticated, compassionate care.
- The Tiny Baby program in Holy Cross Hospital's Level III Neonatal Intensive Care Unit treats micro-premature infants who are born early with significantly lower body weight. Baby Heaven was born at 23 weeks' gestation, weighing only 9 ounces.

Leading in Technology and Minimally Invasive Surgery

- Holy Cross Health continues to break ground with the latest minimally invasive brain procedures: Visualase™ Laser Treatment for epilepsy, Brain Path for tumor removal and Deep Brain Stimulation for Parkinson's disease.
- Holy Cross Hospital was the first in Maryland to offer the world's smallest pacemaker (one-tenth size of traditional pacemaker) for patients with slow or irregular heart rhythm.
- Holy Cross Health is a regional hub for robotic thoracic, gynecologic, colorectal and bariatric surgery. In 2022, the robotic surgery team completed its 10,000th surgery.

Comprehensive Cancer Care

- In early 2023, the first phase of the Holy Cross Health Cancer Center opens in Wheaton with the most advanced radiation technologies in a facility that is filled with light and hope.
- The Breast Center at Holy Cross Hospital celebrated a noteworthy milestone in 2022, with 10 years of accreditation by the National Accreditation Program for Breast Centers.
- For more than 20 years, the Holy Cross Health Cancer Research Program has enrolled thousands of patients in clinical trials that have led to FDA approval of several major lifesaving drugs.

Community Engagement

- Between 2013 and 2022, Holy Cross had 377,036 Health Center visits, provided education through 2,047,666 community health encounters and developed programs such as the Equitable Wellness Initiative and social needs screening and response to advance health equity in our community.

FY 2022* AT A GLANCE

*July 1, 2021 through June 30, 2022

OUR COMMUNITY IMPACT

Throughout FY 2022, Holy Cross Health continued to find new and effective ways to serve our community. The figures below attest to our success — but we remain ever-mindful that behind these numbers are individuals, people whose lives are being bettered every day because of our commitment to listen to their needs, partner to create solutions to their unique health challenges, and make accessing the care they need easy.

ADVANCING SOCIAL CARE

Bringing Vaccine Clinics to Our Community

Since February 2021, Holy Cross Health has conducted 350 free COVID-19 vaccine clinics in partnership with schools, churches, social service organizations and local businesses, providing more than 15,000 vaccinations. Our goal was to break down barriers to receiving the vaccine by offering the vaccine in community-based locations, at a variety of times, working with partners who had trusted relationships in the community. We offered vaccines to all who were eligible — adults, adolescents and children — for first vaccines, second vaccines and boosters. Our community partners identified the locations and assisted with outreach, and Holy Cross provided and administered the vaccines. Together we engaged our community in increasing protection against COVID-19.

“With a strong family history of diabetes, I’m doing everything I can to avoid becoming diabetic. After taking the Diabetes Prevention Program, I’ve been eating healthier, managing stress better and regularly exercising at least four times a week.”

— Cori Gordon

Advancing Health Equity

Identifying and addressing social needs of our community is one way Holy Cross Health is advancing health equity. Social needs, such as food, transportation and housing, can significantly impact a person’s health if not met. In our health centers, our Food as Medicine Program provides fresh produce boxes to food-insecure patients diagnosed with chronic diseases, and a similar program, the Health Equity Advancement and Resource Transformation (HEART) Program, in our physician practices provides social support for patients in need. But our social needs programs don’t just focus on our patients. We also incorporate social needs assessments with links to resources in several of our health education programs, such as the diabetes and lung health classes of our Equitable Wellness Initiative. And our Colleague Needs Program connects our staff in need to community and health system resources.

HEALTH CARE CAN COME IN MANY FORMS

A phone on loan through Holy Cross Health Network’s phone loaner program is a lifeline for Manuel Martinez. The phone makes it easier to communicate with his primary care providers at Holy Cross Health Center in Aspen Hill. The phone loaner program is a demonstration project to address the problem of patients missing doctors’ appointments at Holy Cross Health Centers in Aspen Hill, Gaithersburg and Silver Spring, which provide care to people without insurance or on Medicaid. If they don’t have a phone, patients can’t receive reminders of upcoming appointments.

“To me, this was fantastic,” Manuel said. “Having a phone gives me security.”

Manuel and four other Health Center patients received their phones with a six-month data plan that can be renewed if needed. They found it very helpful — not

only for keeping up with their health, but also for contacting family and friends, researching lower costs for prescription drugs and even applying for jobs.

This is just one example of how Holy Cross Health Network finds innovative ways to help underserved communities. Manuel also receives fresh fruit and vegetables through Holy Cross Health’s partnership with Hungry Harvest. “Holy Cross also gives me Metro Access vouchers to go to the clinic and hospital for appointments,” Manuel said.

“Health isn’t limited to clinical care,” noted Annice Cody, president of Holy Cross Health Network.

“We’re committed to meeting people where they are to promote healthy living — and that extends to food security, housing and transportation assistance for our community.”

“Everybody working at Holy Cross — every day they save lives and they saved mine.”

— Manuel Martinez

Serving Our Community’s Most Vulnerable Residents

Each year, Holy Cross Health Centers provide comprehensive primary care to more than 13,000 adults and children who are uninsured or Maryland Medicaid beneficiaries. The health centers offer nearly 33,000 primary care, specialty and behavioral health visits annually. In addition to medical care, our social work team works with patients to identify and address needs such as food or housing insecurity. And our nurses assist patients with post-hospital transitions and management of chronic diseases.

ADVANCED CANCER CARE FOR OUR COMMUNITY

LINDA'S LIFESAVING CANCER CARE

Linda Lopez Enriquez tried everything to make her stomach pain stop. Despite changing her diet, “everything I ate made me feel unwell,” she said. When blood appeared in her stool, she had a series of stool tests, which came back negative. Still, her rectal bleeding became more frequent and the pain got progressively worse. A diagnosis eluded her — until she saw Halim Charbel, M.D., gastroenterologist, who immediately scheduled her for a colonoscopy.

“If someone is having symptoms as Linda had, they need to be evaluated right away. Colonoscopy is the best way to screen for colorectal cancer,” Dr. Charbel said. For Linda, the screening was a turning point, revealing a 5-cm mass that further testing revealed to be cancer. Because her tumor had spread beyond the bowel wall and into some lymph nodes, she needed chemotherapy and radiation prior to surgery.

Fortunately Linda had access to an expert team to fight her colorectal cancer. Rami Makhoul, M.D., colorectal surgeon; Frederick Min, M.D., medical oncologist; and Sheela Modin, M.D., Medical Director, Holy Cross Radiation Treatment Center, quickly came together to develop an individualized treatment plan to offer her the best outcomes.

The first step was to aggressively treat the tumor with a one-two punch: chemotherapy and radiation at the same time. “This approach typically results in a 70% to 90% reduction of the tumor, and 20% of cases have complete clearance of disease,” Dr. Modin said.

Linda had an excellent response to chemo-radiation. “We couldn’t find any cancer and the residual tumor was less than one centimeter and the lymph nodes were clear,” said Dr. Min.

Dr. Makhoul performed Linda’s surgery robotically to remove the remaining tumor at Holy Cross Germantown Hospital using the *da Vinci*® Xi Surgical System. “Holy Cross has a well-established robotic colorectal surgery program, with a highly trained team,” he said. “The experienced nursing care on the surgical units expedites the recovery process for patients, enabling them to go home sooner.”

After surgery, Linda had additional chemotherapy to reduce the risk of recurrence and is in remission. She will continue to see her cancer team for routine followup and can take advantage of Holy Cross survivorship programs and guidance from our cancer nurse navigators to support her ongoing wellbeing.

“I am so grateful for the care I received from all my doctors and nurses at Holy Cross Germantown Hospital,” said Linda, who was only 44 years old when she was diagnosed with colorectal cancer.

THE *NEW* HOLY CROSS HEALTH CANCER CENTER

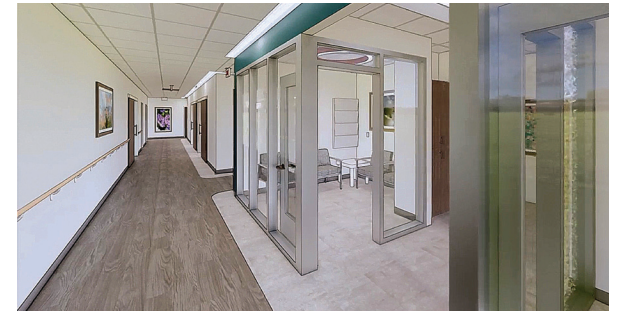

CONVENIENCE AND COMFORT WITH STATE-OF-THE-ART CANCER CARE

Main Entrance

Main Reception Area

Waiting Area

As a leader in inpatient cancer care, Holy Cross Health is among the top health systems in the state to deliver comprehensive cancer services. The opening of our new radiation oncology facility is the first phase in the creation of a patient-centered hub for accessible and coordinated comprehensive cancer care: the Holy Cross Health Cancer Center.

Our new location in Wheaton will offer the same great care you've always received from Holy Cross Health. The radiation oncology department is led by Sheela Modin, M.D., along with Rajal Patel, M.D., and the same team of radiation oncologists

and technicians already known and respected for providing cancer care to our patients. Thoughtfully designed for patient convenience and comfort, the Cancer Center features natural light, calming artwork and comfortable seating throughout.

State-of-the-art technology, including the Varian Edge[®] linear accelerator, allows our experts to target radiation more precisely, reducing side effects and the number of treatments needed. Our commitment to investing in leading-edge technology allows us to treat more complicated patients, elevating our level of care to meet the needs of our community.

Holy Cross Hospital cares for more cancer inpatients annually than any other hospital in Montgomery and Prince George's counties. Radiation oncology is just the first stage of our new cancer medical home. It will be a place of hope where patients come to work with their doctors to heal, so that they may live their best lives.

With the help of generous donors, we can continue to provide state-of-the-art care to our patients and expand our cancer services in the community.

AWARDS & HONORS

Holy Cross Germantown Hospital

RECOGNIZED FOR WHAT WE DO & WHO WE ARE

Holy Cross Health continues to provide award-winning care.

Clinical Awards and Recognitions

- **2022 Healthgrades America's 100 Best Hospitals Award™** for two years in a row. This places Holy Cross Hospital among the top two percent of all hospitals for clinical care and patient outcomes across treatment of the most common conditions and procedures. Holy Cross Hospital is one of only five hospitals in Maryland to be recognized as one of America's 100 Best Hospitals, and the only recipient in Montgomery County, Maryland.
- **2022 Get with the Guidelines® – Stroke Gold Plus Achievement Award** for Holy Cross Hospital and Holy Cross Germantown Hospital from the American Heart Association/American Stroke Association. Holy Cross Hospital has been recognized for 10 or more consecutive years of Gold Plus achievement in Get with the Guidelines® – Stroke and/or Get with the Guidelines® – Heart Failure.
- **Target: Stroke Honor Roll Elite Award** for Holy Cross Hospital and **Target: Type 2 Diabetes Honor Roll Award** for Holy Cross Germantown Hospital and Holy Cross Hospital from the American Heart Association/American Stroke Association.
- **2022 Gynecologic Surgery Excellence Award™** from Healthgrades.

- **2022 Labor and Delivery Excellence Award™** from Healthgrades for Holy Cross Hospital for the seventh consecutive year.
- **2022 Obstetrics and Gynecology Excellence Award™** from Healthgrades for Holy Cross Hospital for the third consecutive year.

Clinical Designations and Accreditations

- **The Joint Commission accreditation** for Holy Cross Hospital and Holy Cross Germantown Hospital, from the main accreditation organization for U.S. hospitals.
- **Primary Stroke Center designation** for Holy Cross Germantown Hospital by the Maryland Institute for Emergency Medical Service Systems (MIEMSS).
- **Advanced Primary Stroke Center designation** for Holy Cross Hospital by The Joint Commission and the Maryland Institute for Emergency Medical Services Systems (MIEMSS).
- **Bariatric Surgery Program accreditation as a Comprehensive Center** at Holy Cross Germantown Hospital and Holy Cross Hospital under the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP).

- **Breast Center accreditation** by the American College of Surgeons National Accreditation Program for Breast Centers (NAPBC). Holy Cross Hospital was the first hospital in Montgomery and Prince George's counties to receive this prestigious accreditation.
- **Breast Imaging Center of Excellence (BIOCE)** designation for Holy Cross Hospital by the American College of Radiology.
- **Cardiac Interventional Center designation** for Holy Cross Hospital by the Maryland Institute for Emergency Medical Services Systems (MIEMSS) to perform emergency angioplasty for acute heart attacks.
- **Center of Excellence in Minimally Invasive Gynecology (COEMIG) designation** for Holy Cross Hospital by the Surgical Review Corporation (SRC).
- **Certification from The Joint Commission for Hip Replacement, Knee Replacement and Spine Surgery.** Holy Cross Hospital was the first hospital in Montgomery County to receive Spine Surgery Certification from The Joint Commission.
- **Comprehensive Community Cancer Program accreditation** at Holy Cross Hospital by the American College of Surgeons Commission on Cancer since 2000.
- **Laboratory Services accreditation** by the College of American Pathologists (CAP).
- **Level IIIB Perinatal Referral Center designation** for Holy Cross Hospital by the Maryland Institute for Emergency Medical Services Systems (MIEMSS).
- **Level 3 Epilepsy Center accreditation** for the Epilepsy Monitoring Unit at Holy Cross Hospital by the National Association of Epilepsy Centers (NAEC).
- **Perinatal Diagnostic Center accreditation** at Holy Cross Hospital by the American Institute of Ultrasound in Medicine.
- **Radiation Oncology Practice accreditation** for the Radiation Treatment Center by the American College of Radiology.

Leadership Awards

- **Support Our Aging Religious (SOAR)**
Holy Cross Health President and CEO Norvell V. Coots, M.D., was a 2022 Saint Elizabeth Ann Seton Award recipient, presented by Support Our Aging Religious (SOAR), a nonprofit organization that raises funds and provides grants to help U.S. Catholic religious congregations support their elderly and infirm members. This award recognizes Dr. Coots' lifelong commitment to providing compassionate health care. He is one of only 43 members of a national network of individuals recognized for their contributions to ensuring the safety and dignity of aging and infirm Catholic sisters, brothers and priests.
- **"Most Powerful Women in the DMV" Recognition**
Annice Cody, president of Holy Cross Health Network, was named to *Washingtonian's* 2021 list of the region's most powerful women. The prestigious list includes the First Lady and the Vice President of the United States, along with national and local leaders from medicine to business and government to philanthropy.

Renovated waiting area

Expanded post-anesthesia care unit

THE MIRACLE OF CHILDBIRTH IN A BRIGHT, NEW SETTING

Holy Cross Health helps bring more than 10,000 babies into the world each year. It's a fact that the physical demands of delivering a child can be daunting to even the most experienced moms. That's one reason it's crucial that labor and delivery facilities are as user-friendly as possible for moms, families and staff alike.

Through the generosity of our donors, including a lead gift from The Nora Roberts Foundation, Holy Cross Health is meeting the needs of our patients and families with a newly renovated 13,000-square-foot labor and delivery unit, perinatal diagnostic center (PDC), C-section operating rooms and associated post-anesthesia care unit (PACU). This included increasing the number of labor and delivery triage beds, adding a fourth operating room, and expanding the size of all operating rooms to accommodate the birth of multiples, high-risk deliveries and the neonatal care team. We are now able to provide comfortable, new, pre-operative C-section bays and the larger PACU allows

for more mothers and a comfortable space for their partners.

Our dedicated staff, many of whom work 12-hour shifts, are benefitting from the efficiency enhancements of the reconfigured, updated workspace.

For 60 years, Holy Cross Health has been an important provider of primary and specialty care services in the community. Families come to us to grow and thrive. Donors make an impact on our families every day through their support of projects like the newly renovated Labor and Delivery Unit.

First-time mom Madison DeLeon and her husband Tim had their baby in the renovated labor and delivery unit at Holy Cross Hospital.

Since 2017 more than \$730,000 has been raised from 300 unique donors in support of the Women and Infants Unit.

Every generous donor helps to transform the lives of all those cared for by Holy Cross Health. Contributions to the Foundation are investments in improving the health of our community through accessible and equitable care, new technologies and innovations, community health and wellness programs, and renovations and new construction.

Your donation makes a difference.

To give, visit us online at HolyCrossHealth.org/donate or call us at 301-557-GIVE (4483).

RECOGNIZING THE IMPACT OF OUR DONORS

Giving Society Members

The Giving Society program recognizes and honors the commitment and lifetime cumulative philanthropy of Holy Cross Health's generous supporters. Their contributions have a direct impact, allowing Holy Cross Health to serve our community members with high-quality care. Thanks to these donors, we can all rely on Holy Cross as our community hospital. From responding to unforeseen events to supporting innovative health and wellness services, Holy Cross Health's Giving Society members help take care of our community.

Thank you!

In this report, we honor those Giving Society members at the \$1,000 level and above who have renewed their philanthropic commitment to Holy Cross Health during Fiscal Year 2022 (July 1, 2021 through June 30, 2022). For a full list of Giving Society members, please visit HolyCrossHealth.org/donate.

The Holy Cross Health Foundation is a 501(c)(3) tax-exempt charitable organization (Federal Tax ID no. 20-8428450) devoted to raising philanthropic funds to support the mission of Holy Cross Health.
